

GET Systems

Reduce total cost of ownership. Increase productivity.

Epiroc's world-class GET technology enables our partners to reduce the total cost of ownership and improve productivity across their entire underground fleet.

- ✓ Reduce total cost of ownership
- ✓ Increase reliability and machine availability
- ✓ Longer wear life
- ✓ Improve productivity

WEARPACT™

SNRG™

ARMOURBLADE™

Wearpack™

Wearpack is a safe, high quality, bolt-on GET system that is proven to deliver exceptional reliability, cost of ownership, and productivity results on mine sites around the world.

+ Features

Protect your Bucket

Reduces maintenance and downtime. Improves loader availability and reliability.

Superior Material

Hard-wearing, impact-resistant steel improves life and reduces downtime costs.

Low Profile

Low profile design makes your machines work easier, reduces waste, and improves productivity.

Easy-to-use Locking System

Patented Wedgenut retainer system that is reliable and easy to install and remove. Wherever and whenever you change your GET, rest assured it can be done safely and easily.

Consistent Wear

Designed to wear from the bottom up – so the more it wears, the sharper it gets. Consistent wear across edge. Patented Wedgenut Retainer system ensures better GET attachment given multiple fastening points. Solid wrap style corners for long life.

Reduce Total Cost of Ownership

Increase Wear Life

Increase Reliability

Increase Safety

Armourblade™

Armourblade is a weld-on, low profile, high penetration bucket edge system developed for customers who want high quality, reliable weld-on GET. The edge systems are available in full spade and semi spade configuration.

⊕ Features

The Most Advanced Productivity Solutions

Epiroc designs simplify the maintenance process, reduce the demand on maintenance teams, and improve digging efficiency with the correct GET application.

Whether you are targeting increased reliability, longer wear life, or improved productivity, with our expert advice and service options, you can be sure our GET is the right choice.

SNRG™

SNRG is a bolt-on underground mining GET system that provides a direct replacement alternative to widely used OEM brands for customers who want high quality solutions while reducing their total cost of ownership.

⊕ Features

Superior Material

Hard-wearing, impact-resistant steel improves life and reduces downtime costs.

Customized to Your Requirements

Available in a range of sizes to suit all LHD loader buckets.

Extended Wear

Half Life End Blades give you the option of extending wear during a campaign.

United in performance. Inspired by innovation.

Performance unites us, innovation inspires us, and commitment drives us to keep moving forward. Count on Epiroc to deliver the solutions you need to succeed today and the technology to lead tomorrow.
