

Automatic Bit Changer

Gaining efficiencies bit by bit

Tired of inefficiencies in the bit-changing process?

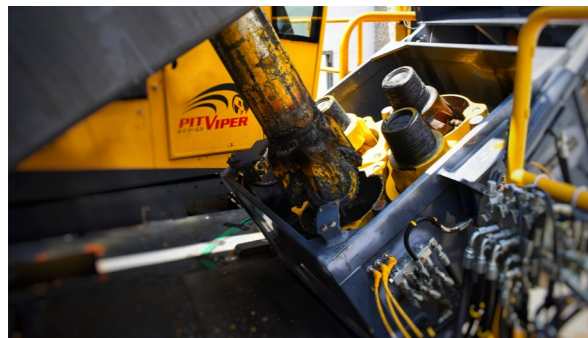

Epiroc's Automatic Bit Changer (ABC) is the next future-ready advancement in autonomous drilling.

With the ability to change out four bits significantly faster than any single manual exchange, the Automatic Bit Changer eases your team's workloads and ups drill times.

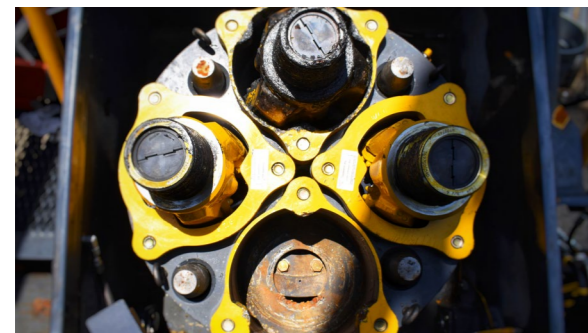

+ Live work elimination

ABC allows your operators to change bits without leaving the cab, or from the comfort and safety of a control room.

+ Efficiency and productivity

By reducing downtime while changing bits, ABC ensures for a more efficient and productive operation.

+ Versatility for your operation

The Automatic Bit Changer's unique bit adapters allow for flexibility of different sizes in the bit carousel.

Service and support

Epiroc offers several types of service agreements to meet your operational requirements and maximize your productivity:

Variable-price repairs Service when you need it.

Fixed-price repairs Service with controlled costs.

Equipment audit Scheduled equipment quality control.

Preventive maintenance programs Peace of mind so you can focus on your core business.

+ ABC
