

# Epiroc blasthole Undercarriage system

Reduces common stressors and early failures

# Epiroc blasthole Undercarriage system

The new Epiroc blasthole Undercarriage system (EBUS) is a purpose built blasthole design that reduces the common stressors and early failures seen in operation, with increased whole of life expectancy and improved performance. Combined with its ease of maintenance and unique features, this innovation gives an unbeatable Total Cost of Ownership.

## + Main benefits

**Designed for** blasthole rigs

**Improved wear life** leading to decreased customer Total Cost of Ownership

**Regional aftermarket** technical support globally

"Dual flange" carrier rollers improve roller life by decreasing wear loads in operation, compared to the single flange cantilever design on traditional side frames.

Optional cleats are available for installation in low traction environments.

Reduced component wear through intentional design, requires less maintenance compared to traditional undercarriage systems.

# Technical specifications

## Mid-range field conversion kits\*

Model	Part number	Description	Equivalent to	Application
DML	2659 6208 04	Field conversion kit	CAT 330S	Used to convert existing side frames to Epiroc undercarriage. Includes assembled track group, Sprockets & roller group.
DML	2659 6212 54	Field conversion kit	CAT 330L	Used to convert existing side frames to Epiroc undercarriage. Includes assembled track group, Sprockets & roller group.
DML-SP	2659 6212 55	Field conversion kit	CAT 330EL	Used to convert existing side frames to Epiroc undercarriage. Includes assembled track group, Sprockets & roller group.
PV235	2659 6212 54	Field conversion kit	CAT 330L	Used to convert existing side frames to Epiroc undercarriage. Includes assembled track group, Sprockets & roller group.
PV230 & PV235	2659 6212 55	Field conversion kit	CAT 330EL	Used to convert existing side frames to Epiroc undercarriage. Includes assembled track group, Sprockets & roller group.

\*Note: Conversion kits designed for installation on original factory equipment.

## Mid-range complete track replacement

Model	Part number	Description	Equivalent to	Application
DML	2659 6240 24	Undercarriage complete	CAT 330S	Epiroc premium undercarriage. Includes fully assembled LH & RH side frames and rig attachment fastenings.
DML	2659 6242 95	Undercarriage complete	CAT 330L	Epiroc premium undercarriage. Includes fully assembled LH & RH side frames and rig attachment fastenings.
DML-SP	2659 6243 53	Undercarriage complete	CAT 330EL	Epiroc premium undercarriage. Includes fully assembled LH & RH side frames and rig attachment fastenings.

## Large-range blasthole conversion kit\*

Model	Part number	Description	Equivalent to	Application
PV351	2659 6251 93	Field conversion kit	CAT 385	Used to convert existing side frames to Epiroc undercarriage. Includes assembled track group, Sprockets & roller group.

\*Note: Conversion kit designed for installation on original factory equipment.

## Optional accessories

Option	Part number	Model	Additional information
Cleats	2659 6257 04	PV351	Installation quantity depends on ground conditions. Standard recommendation is one per 4 shoes.
Cleats	2659 6217 85	DML & PV230/235	Installation quantity depends on ground conditions. Standard recommendation is one per 4 shoes.

# United in performance. Inspired by innovation.

Performance unites us, innovation inspires us, and commitment drives us to keep moving forward. Count on Epiroc to deliver the solutions you need to succeed today and the technology to lead tomorrow.
