Terrah TS100 MA

Underground utility vehicle with high-volume tanks and tools for maintenance operations

Mobile underground maintenance solution

The Terrah TS100 MA maintenance vehicle performs quality routine servicing and repairs, without the need to move production machines from their working locations. The vehicle is equipped with four stainless steel tanks with a total capacity of 4,500 liters for fluids and oils, flow meters, an air compressor, and various tools. Thanks to flexible on-site maintenance, the Terrah TS100 MA can enhance your uptime.

Air-conditioned, ISO FOPS and ROPS-approved operator compartment with door interlock

The Terrah electronic controller offers efficient machine control and data logging from the multi-functional display

Main benefits

Safety – Terrah TS100 MA offers safe transport and clean handling of diesel and oils, and is designed for easy and safe access to integrated maintenance tools.

Productivity – equipped with four high-capacity configurable tanks, retractable hoses and quality tools, powered by the diesel engine, for flexible and efficient on-site maintenance.

Improved production efficiency – effective machine maintenance boosts your fleet utilization, and reduces costs and downtime of production machines. Failsafe SAHR brake at all wheels

Built to deliver. Designed to adapt.

Contamination control

provided by liquid filters

The Terrah Series of utility vehicles are designed to maximize modularity, productivity and safety in small to medium-sized underground mining and civil construction tunnels. Built on a legacy of reliable, durable products now enhanced with Epiroc technology, the Terrah Series supports customers throughout their operations.

Compressor provides consistent

air supply and power pressure for pneumatic tools and tire inflation Filling nozzles with flow meters, drip trays, and long retractable hoses for efficient and safe handling of fluids

Fleet monitoring and data solutions

50 kg lubrication grease tank with pump and nozzle

Engine

	Standard	Alternative 1	Alternative 2	
Brand/model	Deutz TCD914 L6 Tier III	Deutz BF6L914 Tier II	Deutz TCD6.1 L6 Tier III	
Power at sea level	129.2 kW @ 2300 rpm	104 kW @ 2300 rpm	150kW @ 2300rpm	
Cooling	Air	Air	Liquid (Glycol/water)	
Engine control	Deutz EMRII	Deutz EMRII	Deutz EMRIII	

Fuel

Fuel tank capacity 140 liter

Exhaust system	
Catalytic exhaust gas purifier	٠
Fume diluter	٠
Diesel Particulate Filter (DPF)	0

Transmission

Brand/model	Dana	
20000 series power shift transmission		•
32000 series power shift transmission*		0
* Only with TCD6.1 Engine		

Axles		
Brand/model	Dana/113	
Differential: front open		•
Differential: front, no-spin		0
Differential: rear open		•

Brakes

Wetted fully enclosed immersed brake disks	٠
Spring Applied Hydraulic Released (SAHR) fail safe brakes - park/emergency	٠
Manually activated park/emergency brake valve	٠
Foot pedal activated hydraulic service brake	٠

Specifications

Capacities	
Tramming capacity	4 500 liter
Weight*	
Weight, empty	17 150 kg
Axle load front, loaded	5 550 kg
Axle load rear, loaded	15 300 kg
*Weights are approximate and given with filled fluid: vehicle	•

Tires

Tire size front and rear	1200 x 20	
Air filled tires		•
Polyurethane foam filled tires		0

Performance

Maximum speed on level ground*			
Gear 1	5 km/h		
Gear 2	11 km/h		
Gear 3	27 km/h		
*For standard transmission	1		

Technical specifications

Electrical system

System voltage	24V		Steel fabrication construction	•
Alternator	80 Amps		Bolt-on operating cabin	•
Battery	2 x 110 Ah		Front axle oscillation of 5° both sides	•
Lockable double pole battery is	olator switch	•	Integral hydraulic and fuel tanks	•
Engine starter isolation switch		0	Centre articulated steering	•
Electric starter		•	Two double acting hydraulic steering cylinders (pull/push)	•
Key switched ignition		•	Steering lock bar	•
Inlet plug for jump start		0	3-point of contact for boarding/exit	•
4 x front headlight LED		•	Front towing attachment with towing pin	•
2 x rear drive ligths LED		•	Rear towing attachment with towing pin	0
Directionally controlled drive lig	hts	•	Stainless steel tanks	•
Amber rotating light		•	Diesel tank: 2000 liter	•
Reverse warning light and alarm	1	•	Hydraulic oil tank: 1500 liter	•
Brake lights		•	Engine oil tank: 500 liter	•
Orange turning direction indicate	or lights	•	Engine coolant tank: 500 liter	•
Red and green marker lights		0	Lubrication grease: 50 kg	•
			Air compressor	•
			Central automatic lubrication system	•
Control system			Central manual lubrication system	0
-			Wiggins fast fuel and oil filling system	0
Terrah electronic controller		•	Wiggins central service points	0
Robust water-resistant digital dis	splay	•	2 x stop blocks (wheel chocks)	•
On-screen push button interface	9	•		

Terrah electronic controller		Wiggins fast fuel and oil filling system	0
	•	Wiggins central service points	0
Robust water-resistant digital display	•	2 x stop blocks (wheel chocks)	•
On-screen push button interface	•		
Power Distribution Modules (PDM)	•		
Electronic pressure sensors	•		
Speedometer	•	Operator's compartment	
Overspeed control	•	FOPS and ROPS-certified	•
Decline speed control	•	Two person (1 x driver and 1 x passenger)	•
Delayed engine shutdown	0	Windows, front window washers and wipers	•
Inclinometer	•	Temperature and fan speed adjustable air conditioner	•
Block out 3rd or 4th gear	0	Canopy (no windows or air conditioner)	0
Door Open Brake Applied (DOBA)	•	Steel grid protection over windows	•
Neutral gear brake (NBA)	•	Steering wheel	•
CAS interface	0	Suspension and height adjustable operator's seat	•
Seat belt switch interlock	0	Canvas seat covers	0
Relay electrical switching (only available with air-cooled engine)	0	Driver and passenger seats fitted with lap-type seat belts	•
Mechanical pressure gauges*	0	3-point retractable seat belts	0
Mechanical control panel switches*	0	External camera with a monitor, split screen	•

Digital products		Instruction manual, one hardcopy	•	
Fleet monotoring with Fleet+ on My Epiroc	•	Spare parts manual, one hardcopy	•	
Machine and fleet data via APIs	•	PDF manuals on USB flash drive, two per machine	•	

Hydraulic system

Gear pumps: brakes and steering	•	Standard painting and taping	•
Auxiliary hydraulic power take-off (PTO): Gear pump	•		
System pressure up to 310 Bar	•		
11 µm return line filter	•		

Safety system

3 x emergency stop buttons	٠
2 x 9 kg handheld fire extinguishers	•
ANSUL manual dry fire suppression system	0
ANSUL FIRECHECK automatic dry fire suppression system	0

A comprehensive service offering

Even the best equipment needs to be serviced regularly to make sure it sustains peak performance. An Epiroc service solution offers peace of mind, maximizing availability and performance throughout the lifetime of your equipment. We focus on safety, productivity and reliability.

By combining genuine parts and an Epiroc service from our certified technicians, we safeguard your productivity – wherever you are.
